- Support URL for all shapes
- Browse dependent project diagrams
- Duplicate model elements from reference project
- Import Visio diagram as Stencil
- Place ID box in any position
- Show shape name in different angle
- Remember expand and collapse connection points

Enhancements to Agilian 3.0 includes:

- Write Flow of Events with control statements
- Filter model elements in Report Writer
- Filter model elements in report template designer
- Sort visual diff result
- Export MS Excel in normalized format
- Generate sequence message number by frame
- Specify duration constraint
- Specify line jump size
- Impact analysis glossary term
- Specify DPI when export PNG
- Generate report with dependent project
- Generate structured IDs
- Specify secondary pool and lane

- Calculate cost in simulation
- Manage multiple simulation profiles
- Export simulation profile
- Enhance state machine diagram presentation
- Support stereotype in EPC diagram
- Re-use attribute as initial value

## **Pricing and Availability**

Agilian 3.0 is now available through the Visual Paradigm online shop ([www.visual-paradigm.com/shop](http://www.visual-paradigm.com/shop)) and Visual Paradigm resellers ([www.visual-paradigm.com/shop/authorizedresellers.jsp](http://www.visual-paradigm.com/shop/authorizedresellers.jsp)). Agilian is available under both single seat (developer-based) and floating licenses. Single-seat licenses are available from US \$299.00 for the Standard Edition to US \$999.00 for the Simulacian. Alternatively, these licenses can be purchased with one-year software maintenance contract for prices starting from USD \$358.50 to US \$1,198.50. A floating license is available from US \$388.50 to US\$ 1,298.50, or US \$466.00 to US \$1,558.00 including a one-year software maintenance contract. Both minor and major version upgrades are covered by the software maintenance contract.

## **Agilian**

Agilian is the most intuitive and simplest agile modeling toolset in the market that provides a full spectrum of modern and everlasting notations and tools for Agile Model Driven Development (AMDD) or Agile MDA. The ultimate purpose of modeling is to clearly understand what it is you are building, and through Agilian you can share your ideas and designs by distributing your projects to your customers with our free-of-charge viewer, as well as communicate effectively with your team and/or project stakeholders. Agile modeling is not limited to just one of two notations; Agilian provides a complete range of notations and tools including UML, BPMN, ERD, DFD, CRC, Textual Analysis to aid you in applying Agile Modeling efficiently.

## **Visual Paradigm International Limited**

Visual Paradigm International Limited is a leading provider of software solutions that enable organizations to develop quality applications faster, better and cheaper. Visual Paradigm is dedicated to continually developing and delivering software, services and partnerships to help customers accurately transform their system requirements into high-quality software solutions, all with minimum risk and maximum return on investment. All Visual Paradigm products are designed and developed to remove complexity, improve productivity and compress customers' software development time frames.
