Pricing and Availability

DB-VA 6.0 is now available through the Visual Paradigm online shop (www.visual-paradigm.com/shop) and through Visual Paradigm authorized resellers (www.visual-paradigm.com/shop/authorizedresellers.jsp). DB-VA is available under both single-seat (developer-based) and floating licenses. Single seat license are available from US \$399.00 for the Java Edition to US \$699.00 for the Professional Edition. Alternatively, these licenses can be purchased with a

one-year software maintenance contract for price starting from US \$478.50 to US \$838.50. A floating license is available from US \$518.50 to US \$908.50, or US \$622.00 to US \$1090.00 including a one-year software maintenance contract. Both minor and major version upgrades are covered by the software maintenance contract.

DB Visual ARCHITECT

DB-VA is an Object-Relational Mapping (ORM) tool for rapid database applications development. DB-VA offers visual modeling capability for performing both logical and physical data design. DB-VA supports round-trip mapping and synchronization between object model and data model. DB-VA also generates a cost-effective, reliable, scalable and high-performance ORM layer that supports transaction, cache and other optimized features for manipulating relational database records in a completely object-oriented way. DB-VA product home page is available at www.visual-paradigm.com/product/dbva/.

Visual Paradigm International Limited

Visual Paradigm International Limited is a leading provider of software solutions that enable organizations to develop quality applications faster, better and cheaper. Visual Paradigm is dedicated to continually developing and delivering software, services and partnerships to help customers accurately transform their system requirements into high-quality software solutions, all with minimum risk and maximum return on investment. All Visual Paradigm products are designed and developed to remove complexity, improve productivity and compress customers' software development time frames.
